This form is only available in PDF format at DSHS web site:

www.dshs.state.tx.us/chs/hosp under 2013 Annual Statement of Community Benefits Standard.

** The information in the manual will be made available for public use. Please report most current information on the charity care policy and community benefits provided by the hospital.

*** The list is also available on DSHS web site: www.dshs.state.tx.us/chs/hosp/.

I. Charity Care Policy:

1. Include your hospital's Charity Care Mission statement in the space below.

As part of the Memorial Hermann Healthcare System's mission to serve the healthcare needs of the community, Memorial Hermann will provide charity care to patients without financial means to pay for hospital services in keeping with the guidelines established in this policy as presently constituted or as amended from time to time. Care will be provided to all patients who present themselves for care at Memorial Hermann without regard to race, creed, color, or national origin. Those patients who are financially indigent or medically indigent will receive such care on a non-discriminatory objective basis and consistently with the continuing need for good stewardship of limited medical and financial resources.

2. Provide the following information regarding your hospital's current charity care policy.

a. Provide definition of the term **charity care** for your hospital.

Program/Patient Population: The categories of patients who qualify for charity care are defined as: - Financial Indigents - Medical Indigents - Governmental Sponsored Indigents/Patient Portion - Presumed Indigents. The Memorial Hermann charity program is designed to provide hospital services to patients who do not have alternative health care resources. If however, an indigent patient presents to a Memorial Hermann hospital for medical treatment and the patient is eligible for like treatment at an alternative governmental healthcare facility, the patient's medical needs should be met through the alternative facility. Exceptions to this policy would include situations where the patient's condition is considered an emergency medical condition or the treatment requires unique skills that can only be performed by a physician on the Memorial Hermann medical staff. In these instances, Memorial Hermann will provide all medical treatment ordered by the responsible medical practitioner(s) regardless of the patient's alternative health care resources. Once the patient is stabilized or the specialized medical need is provided, the responsible practitioner (e.g., physician) shall refer the patient into the alternative governmental healthcare facility for follow up and continued health care needs. Elective patients will generally not qualify, however exceptions may be made on an individual basis consistent with the principles set out in this Charity Care Policy. Charity determination is conditional and does not apply to Third Party claims such as lawsuits, settlements, hospital liens or any other third party payment or liability. Memorial Hermann retains its rights to recover the full balance from any third party resource to the fullest extent allowed by law.

b. What percentage of the federal poverty guidelines is financial eligibility based upon?

d. Does your hospital have a charity care policy for the Medically Indigent?

☒ YES NO IF yes, provide the definition of the term **Medically Indigent**.

Medically Indigent 1. Medically Indigent in most cases will be a patient for whom the balance of the hospital bill exceeds 20% of the person's annual gross income and who is unable to pay all or a portion of the bill balance resulting from a catastrophic illness or injury. 2. If the patient's annual gross household income exceeds four hundred percent (400%) of the Federal Poverty Guidelines and the hospital bill is over two times the patient's annual income, the patient will be responsible for the amount of the bill not less than 20% of the patient's annual gross income or 10% of the balance which ever is greater. Based on F1 below but will not be less than 20% of the patient's annual gross income. 3. If a determination is made that a patient has the ability to pay all or a portion of the remainder of the bill, such a determination does not prevent a re-assessment of the patient's ability to pay at a later date. 4. If an uninsured patient's income exceeds one hundred percent (100%) of the poverty guidelines but does not exceed four hundred percent (400%) of the current Federal Poverty Guidelines the patient will be responsible for a percentage of the bill balance or co-pay. The patient's percentage will be based on a sliding scale listed on the Hospital's Gross Annual Income Eligibility.
